

South Haven 5/17

I had friends from Georgia in town for a few days to fish and after the wind settled down on Wednesday, we hit the water Thursday. We finished 20 for 27 in 4 hours to take home a 4 man boat limit. We had another mixed bag of fish consisting of kings, lake trout, steelhead and coho. It was still a bit choppy so we got on a south troll for the entire time. Catching fish from depths of 190 fow to 145 fow and everywhere in between. Northport Nailer spoons and Horse Flies did the damage. Purple spoons were good most of the day including Bruiser (31), Pumpkinseed (16) and Blueberry Muffin (45). 3-15 colors of leadcore and divers set back 90-110 feet were the ticket. Seamist andn Fireworks flies both took several fish. Seamist set deep off a rigger and the Fireworks on a 3 color leadcore. Other spoons that caught fish were Mashed Mahi (80), Glow tiger roughy (65), Lemon fire glow (76), Sour Apple (29), Mashed Bannana (11), Sunfire (69), Lemon ice glow (43).
