

## South Haven 5/26

Headed to South Haven to meet customers from the Chicago area. After running out to our numbers from the previous week and dodging some heavy rain, we sat down and got lines set. We took two fish while setting gear, but things slowed down. Radio chatter and phone calls to friends, didn't unravel any great mysteries on the fish as it was slow for everyone I talked to. We finished the day 7 for 9 with all small fish. Everyone on board had a good time, but action was a tad slow with 18-19 rods in the water at all times. Leadcore took all the hits except one rigger bite. 5 colors down to 13 colors took the hits and the rigger was 150 down. Mashed bannana (11) took 3 hits on the 5 color, Bluberry Muffin (45) took two hits on the 13 color and the rest of the hits were a smattering between pumkinseed (16), orange/ black/ gold (prototype), bruiser (31), Blue Mahi (82) and fireworks HorseFly behind a dodger.
