

Good fishing to be had

Fishing has been good as of late. After the hiatus I had while on family vacation, I have gotten back on the big lake and the lake is yeilding good fish. Last Friday I finished with 7 fish, but they were all big, with an average close to 12# or more. I fished again on Monday of this week and finshed with 11 large fish again. Fish have been fairly close to shore so that is convienent. Fish are getting into their mid summer patter which includes and early morning bite that is strong and then tapering off. Throughout the day, there are intervals of great fishing, followed by slower times. Then again in the evening, action tends to pick up well.

I will be fishing Wednesday through Friday in preperation for the Muskegon Cabelas Shootout tournament that is Saturday and Sunday. Check back after the weekend for detailed reports.

Good luck to those that are fishing the tournament.
