

Muskegon 5/21

I was greeted with choppy 2-4 foot seas this morning from the northwest. We ran to 200 fow and set up shop with the waves. We finished 5 for 8 all silver fish today. Fish were 80-165 down. Nailers in blueberry glow (19), Greenberry glow (18), Lime ice glow (42), mashed bannana glow (12) all took bites on the riggers and 450 copper. Wire divers on 1 took a bite each with E chip in blue glow and green glow with seaweed and sea mist Horse Flies in tow. Two kings were just shy of 12# each. Two fish that we lost were also good sized kings.
