

Kings have arrived 5/22

After yesterday's silver fish, I ran back to the same area today. We sat down in 225 and worked with the waves. Fish started biting while setting lines and continued until 10:15 when we reached our 3 man limit on kings with one bonus coho. the fish topped out at 11#. Today's hot bait was the Mashed Bannana glow (12) Nailer on the 450 copper taking 4 fish. Next was the Blue/ glow e chip on the wire diver back 250 with a Sea Mist Horse Fly taking 3 bites. Seaweed Horse fly on green glow e chip 180 on wire diver took one, Greenberry glow (18) took one on the rigger 140 down and Bruiser (31) took one 70 down on the rigger. Seas were 1-3 and built to 2-4 by the time we ran in. It was much calmer near shore with the Little Sable land shadow working in our favor. We landed each bite today finishing 10 for 10.
