

Walleye Smackdown!

I took the boat to Lake Erie this past weekend for the second annual Educated Angler Walleye Smackdown! Fishing was nothing short of a smackdown. We fished less than 5 hours on Saturday in Ohio waters out of Toledo Beach marina and boxed our 5 man limit of 30 walleye including 8 throw backs and about 40 white bass and sheepshead. Once again we ran our "salmon" program to load the boat. Riggers, Slide diver Lite Bites, 2-3 colors of leadcore and mini disks off boards all produced fish. We ran all Northport Nailers with mixture of colors in the 100 and 300 size spoons. The most productive spoon on the walleye was Orange Ice (41) landing 15 of our eyes. Second were two different prototypes in variations of copper and copper and silver taking 13 walleye. The remainaing including the throwbacks came on mixture of Pink Ice (40), Lemonfire Glow (76), Mashed Bannana glow (12), Sunfire (69), and a couple prototypes on gold blanks with ornage and pink and orange and black. We also had one bonus steelhead that was taken on the 2 color with Orange Ice. Lake Erie is HOT, so get in on the worlds greatest walleye action!
