

8/29

The morning group showed up a bit late so we got out after the hottest morning bite.Â But we managed to get 13 or 14 bites on the trip.Â The crew had a hard time wrangling the fish to the boat but landed 6.Â Plugs took 4 bites and Horse Flies took all the rest.Â Sea Mist and Sea Weed went about even steven trailing 11" and 8" green and blue E chip flashers.

The afternoon trip started out slowly and action heated up as the day wore on.Â We worked water from 75-150 and back in to 65 for the finish.Â We pulled one steelhead on a plug and all the rest came on SeaMist horse flies behind Green and blue E Chip flashers.Â Riggers and divers were both firing.Â Finished up 9 for 9 with 3 in the 15# class, one laker, one steelhead and a few coho.

Â

Get out there while the action is HOT
