

Muskegon 5/30 Steelhead and Salmon fishing in Muskegon

ran out with some buddies today and finshed 18 for 27. Lots of steelhead landing 10, also 7 kings and 1 coho. Several fish we lost were steelies also. Most fish were high in the water column coming on 3,5,7,9 colors of lead and high divers set 50-80 back. Bright colors ruled with prototype goldie hawn taking the cake, mashed bannana was good and also orange edge green edge. Orange ice on gold took several as well.

Fished 170-270 and fish pretty much everywhere between.
