

6/27 salmon fishing muskegon

Headed out for a morning fish with one buddy.Â Sat down in 50 fow and headed NW covering water out to 230.Â We finished 3 for 4 all lake trout.Â All bites were on Seaweed and Seamist Horse Flies.Â We marked lots of fish in the 100-200 range mostly on the bottom and some suspended in the 40-55 down range.Â We tried to brush up on the laker program with little success.Â There have been a few good fish being caught, but overall catches remain on the lower side.Â Things look to be setting up well and should be turning around shortly as fish begin to stage offshore.
