

8/4 salmon fishing in Muskegon

After the winds finally abated enough to get out, we got some lines set yesterday. Fish were scattered around a bit, but we found some in the 180 range again. The winds socked in more warm water, shoving the thermal break down to about 100' instead of 70 from last week. We picked away finishing 7 for 8 plus a beautiful Disney mylar fish balloon on the 9 color. A true trophy. The balloon took a Nailer. But for the fish, 4 rips on Seamist Horsefly, one on Seaweed, one on Blue ice (44), One on Dark Monkey puke (22) one on Roughy (65). Fish were deep, over 100 down with the two exceptions. Had three kings, one coho, one laker and two steelies for a nice mixed bag.
