

Walleye Attack

Jumped on board with buddies last night and we hit the pier heads past the beach line looking for walleye. We landed 4 out of 5 hooked. Typical post spawn walleye program. Big body baits, salmon rods, salmon reels and salmon line. They are not real shy this time of year. Strictly a night time affair past the beach line into lake Michigan. After the season opens up, we can get after them in Muskegon lake as well. Still a nighttime affair.
