

Muskegon salmon and Trout action 9/11 - 9/13

Fished offshore Saturday 9/11.Â Finishing 7 for 10 with a mixed bag with 4 species including kings, coho, steelhead and lake trout.Â Large steep waves dictated fishing inside the piers and in Muskegon Lake for mature spawning fish on Sunday.Â The bite was off and we landed one mature king and a Boone and Crocket sheephead.Â Monday we again were offshore and landed 8 for 11 fish on again with a mixed bag of 4 species with everything except brown trout.Â Offshore fishing continues to be steady and there are pockets of fish.Â If the waves allow turning on the fish, you can beat on them pretty well.Â There is lots of bait in the 180-190 range.Â Plenty of steelhead in the mix, making for a fun catch.Â Northport Nailer spoons in Greenberry glow, SeaBee, Salmonhead, Blueberry Muffin, Lemon Ice, blue puke, purple passion, pearl plugs, SeaWeed, Atomic green GlowÂ and SeaMist horseflies all took fish anywhere from a 9 color leadcore to 450 copper, riggers 55 to 200 down and divers 130 to 300 back.Â So the fish are scattered throughout lots of water column for sure.Â If we ever get a couple stable days in a row, it could be a blood bath out there.
