

8/14

Â

Fishing in high wind was a bit challenging for several stomachs on board today.Â The North winds had some fish in close and we picked away at a few.Â Landing a pair of 11-12# Kings and three little guys.Â Better fishing was in about 100' and the ledge continues to produce strong numbers weather permitting.Â Horse Flies in SeaWeed, Atomic Green glow and blue glow took fish as well as Spoons in Cantelope (55) and Blue Mahi (82).
