

## Deckload City

Fishing today was unreal. After 1.5 hours in the channel with 3 fish in the boat, we ran offshore and proceeded to box 21 more fish in 3 hours, finishing 24 for 28 today. The fishbox literally would not close. We had two 10# fish on the floor for the run back in. Get out there now! Flies took 22 bites in Artic ice, Little boy blue, SeaMist and blue glow. Green plug took 2 in the channel and Watermelon Frost Glow took 2 as well as the Harvinator spoons. Phenominal morning of fishing, we were done by 11:40 AM.
