

## 9/24 Fishing continues to be HOT

I jumped aboard SeaBee as a first mate on Saturday morning and we continued the slaughter landing 18 of 23. SeaBee is also a Northport Nailer boat so it was the same program. Nailers and Horse flies were about a 50/50 split on the fish. We did best in 220-240 although other reports were fish were in 140 as well. Most fish were on the deep side with riggers 67-125 down and deep coppers like 250, 300 and 400. 12 colors of lead took fish and so did divers 130-230 back.

Get out there while the season allows. Salmonhead goes to sleep in a few weeks. Still have October 1 and 2 open as well as October 15 and 16.
