

Shakedown 2012

Took the boat out all alone on Friday afternoon for a quick two hour trip. I landed 5 of 7 on in that short time. HorseFlies were the ticket. I caught fish from 235 fow to 265 fow. Best was Artic Ice Horsefly taking 4 bites, SeaMist and SeaWeed each took one bite. Rigger bites were 108 and 154 down and diver bites were 240 and 320 back. Hot troll wih down speeds 2.5-2.7. I landed 3 kings from 9-11# and one laker and one coho. The lone spoon bite was on a Nailer #5, Lemon lime orange twist.

Reports from friends continue to be spectacular with limit catches for everyone on board in fairly short order. Fishing seems is about 4-6 weeks ahead of shcedule this year. Browns have been caught in shallower, but a great mixed bag with lots of big kings are being taken out deeper.
