

Muskegon 7/29

Had a great trip out of Muskegon today. Fishing was good. We went north of port in about the 17's and had our best luck in the 80-90 range. Spinnies and flies took 3 fish and Northport spoons took the rest. We finished 9 for 11. Divers ruled taking 5 hits, core took 4 bites and riggers accounted for only 2. Glow tiger roughly (65) took two rips on the high starboard diver set to #3 back 60', while the low starboard diver set to #1 took one on a white and green spinnie with a duckhead Horse fly, back 90. Port High diver set to #3 back 102 took 2 on the same spinnie with Atomic Green Glow horse fly. 13 colors of lead pulling Bruiser (31) took 2 good fish, 9 colors with Lemonfire glow (76) took a little dude, and th 15 color with blue green dolphin prototype had a good rip, but got off. Only rigger fish came deep, both at about 75 down. Green Mahi (83) as a slider above a green and chrome spinnie took a nice king and sour apple 29 on the other rigger took one. Fish were healthy weighing 6-12# except for the one twinkie. One of the 12# fish was really dark brown already and its teeth were coming out nicely. A good time was had by all with lots of laughs and plenty of fish.
