

## Weekly fishing report Aug 8-11

Fishing has been good with moments of greatness and moments of not greatness. There are some huge fish around. We set a new boat record a few weeks ago and broke it again and almost again.

Thursday morning the 8th we finished with 10, Thursday afternoon we had 5. Friday we had 10, Saturday morning we had 8 in the morning and 5 in the afternoon. Sunday morning we had 4 and Sunday evening as first mate we had 8.

Of all the trips we had two dinosaur lake trout that weighed 22.25# and 15#, 20.5# king and a 21# king, and several more in the mid to upper teens. Lots of steelhead and coho around as well.

So the 20#7oz boat record from about 2005 was broken in July with a 21#7oz king. That was almost broken with a 20.5# fish Sunday but all fell short of the 22.25# lake trout we took on Thursday last week.

That is a boat record that needs to be broken soon. Get out there while the big boys are around.
