

## Outdoorsmen League 8/17

Fished the league last night with Grayson and hopped aboard with Mike Spriensma and his buddy. We ran north of port sheldon and fished 130-70 fow. Not a bite until we turned it on a southerly troll. Immediately we took a double, one on full copper and the other on 13 colors of lead. High diver back 120 took 2, riggers set at 75 and 65 took one each on free sliders and the copper took another fish. Finished 7 for 7 and took the title last night weighing our best 6 for 65+ and big fish honors with one over 17#. All contestants took nice fish last night, and most weighed their 6 but had more. Fishing remains great. Lures that worked for us were all spoons. Northport Nailers took 3 fish, two on Roughy (65) and one on Blueberry glow (19). Silver streak Magnums took 2 or 3 and Moonshine regular took one. Ran a lot of flies and they didnt get a bite. We systamatically swapped them for spoons as the night went on.
