

## Grand Haven Mud Run

Hopped aboard Keepin it Kool with Grayson, Bill and Art and headed out to try our luck around Grand Haven.Â We avoided the crowd and went north of the piers and set lines.Â we worked 40 to 60 fow.Â Within an hour or so we were 2 for 5 with a couple nice mature fish in the box.Â Then we went cold, so on a tip from a friend worked our way south into the pack of boats.Â hits contiuiued but we only managed to ice one more fish.Â We finished about 3 for 12.Â Pearl tomic plugs, green glow tomic and magnum moonshines accounted for all the hits.Â Plugs were on the riggers and the spoons were on divers.Â Flashers were run on divers and riggers and spoons and plugs on core were all run unsuccesfully.Â A couple hits on core that didnt hook up.Â Fish remain tight to the piers or within a mile or so.Â Large swells from the sw greated us, but the abcense of wind chop made the day pretty comfortable on the water.Â

Â

Fishing muskegon the next two days on Salmonhead.Â Reports to follow.
